Introduction

Each state determines by statute or regulation the persons or entities entitled to access or receive information in the prescription monitoring program database in that particular state. This memorandum sets out those states that allow access to or receipt of database information by probation and/or parole officers or the Department of Corrections. This does not mean that if a particular state is not listed in this memorandum or the accompanying map that those entities in that state are not allowed access to the information. The following states either specifically include the probation and/or parole officers or the Department of Corrections in the list of persons or entities entitled to access or NAMSDDL was informed by the administrator of the state prescription monitoring program that such persons are allowed access.
