Introduction

Each state determines by statute or regulation the persons or entities entitled to access or receive information in the prescription monitoring program database in that particular state. This memorandum sets out those states that allow access to or receipt of database information by worker's compensation specialists. This does not mean that if a particular state is not listed in this memorandum or the accompanying map that worker's compensation specialists in that state are not allowed access to the information. If such persons fall within the definition of "practitioner" or "health care provider" in the state, he or she may qualify for access to the prescription monitoring program database. The following states either specifically include worker's compensation specialists in the list of persons or entities entitled to access or NAMSDDL was informed by the administrator of the state prescription monitoring program that such persons are allowed access.

A. An employee who may be entitled to compensation under this chapter shall submit himself for medical examination from time to time at a place reasonably convenient for the employee, if and when requested by the commission, his employer or the insurance carrier. A place is reasonably convenient even if it is not where the employee resides if it is the place where the employee was injured and the employer or the insurance carrier pays in advance the employee's reasonable travel expenses, including the cost of transportation, food, lodging and loss of pay, if applicable.

B. The request for the medical examination shall fix a time and place having regard to the convenience of the employee, his physical condition and his ability to attend. The employee may have a physician present at the examination if procured and paid for by himself.
