Arkansas Code Annotated

Title 5. Criminal Offenses

Subtitle 6. Offenses Against Public Health, Safety, or Welfare (Chapters 60 to 79)

Chapter 64. Controlled Substances

Subchapter 2. Uniform Controlled Substances Act--Designation of Controlled Substances

§ 5-64-212. Substances in Schedule V--Ephedrine combination product, pseudoephedrine, and phenylpropanolamine

(a) An ephedrine combination product, pseudoephedrine, and phenylpropanolamine, as defined in § 5-64-1103(g), are designated Schedule V controlled substances in addition to the drugs and other substances listed in Schedule V of the List of Controlled Substances for the State of Arkansas promulgated by the Director of the Division of Health of the Department of Health and Human Services.

(b) The Schedule V classification does not apply to:

(1) An exempt product described in § 5-64-1103(b)(1); or

(2) Any ephedrine or pseudoephedrine in liquid, liquid capsule, or liquid gel capsule form described in § 5-64-1103(b)(2).

(c) The director may reschedule a product described in subdivision (b)(1) or (b)(2) of this section if it is determined that the conversion of the active ingredient in the product into methamphetamine or its salts or precursors is feasible.

(d) A wholesale distributor with exclusive rights to distribute pseudoephedrine to only licensed pharmacies is exempt from Schedule V requirements for the storage and distribution of pseudoephedrine.

Oklahoma

Oklahoma Statutes Annotated

Title 63. Public Health and Safety

Chapter 2. Uniform Controlled Dangerous Substances Act

Article II. Standards and Schedules
 § 2-212. Schedule V

A. The controlled substances listed in this section are included in Schedule V.

...

2. Any compound, mixture, or preparation containing any detectable quantity of pseudoephedrine, its salts or optical isomers, or salts of optical isomers. If any compound, mixture, or preparation as specified in this paragraph is dispensed, sold, or distributed in a pharmacy:

...

B. The Schedule, as specified in paragraph 2 of subsection A, shall not apply to any compounds, mixtures, or preparations which are in liquid, liquid capsule, or gel capsule form if pseudoephedrine is not the only active ingredient.

C. The Director of the Oklahoma State Bureau of Narcotics and Dangerous Drugs Control, by rule, may exempt other products from this Schedule which the Director finds are not used in the illegal manufacture of methamphetamine or other controlled dangerous substances. A manufacturer of a drug product may apply for removal of the product from the Schedule if the product is determined by the Director to have been formulated in such a way as to effectively prevent the conversion of the active ingredient into methamphetamine.

D. As used in this section:

1. "Gel capsule" means any soft gelatin, liquid-filled capsule that contains a liquid suspension, which, in the case of pseudoephedrine, is suspended in a matrix of glycerin, polyethylene glycol, and propylene glycol, along with other liquid substances. Regardless of product manufacturer labeling, a gelatin-covered solid does not constitute a gel capsule under this definition; and

2. "Active ingredient" shall include the matrix of glycerin, polyethylene glycol, and propylene glycol that is found in liquid capsules.

Oklahoma Administrative Code

Title 475. Oklahoma Bureau of Narcotics and Dangerous Drugs Control
 Chapter 55. Pseudoephedrine Control

475:55-1-2. Characteristics of exempt pseudoephedrine products

(a) All products that are either: (1) soft gelatin liquid-filled capsules; or, (2) liquid preparations, are exempt from Schedule V. Conversely, all solid dosage forms of medications, including powders, that contain any quantity of pseudoephedrine are classified as Schedule V controlled dangerous substances and are subject to the rules of this section.

(b) The term "gel capsule," as specified in O.S. Title 63, means any soft gelatin liquid-filled capsule that contains a liquid suspension, which, in the case of pseudoephedrine, is suspended in a matrix of glycerin, polyethylene glycol, and propylene glycol, along with other liquid substances. Regardless of the product manufacturers' labeling, a gelatin-covered solid does not constitute a "gel capsule" under this provision.

(c) The term "active ingredient," as specified in O.S. Title 63, shall include the matrix of glycerin, polyethylene glycol, and propylene glycol that is found in liquid capsules.

(d) Nothing in this section shall exempt from Schedule V status any liquid preparation that is found in an illegal laboratory, is associated with an illegal laboratory, or is in any form other than that manufactured and sold by a registered manufacturer for medicinal purposes.

(e) Products containing pseudoephedrine that are dispensed pursuant to a valid prescription by a registrant are

exempt from classification as Schedule V. As such, these are not restricted to the limitations of five (5) refills within a six (6) month period-instead, they are regulated the same as any non-scheduled prescription drug. Any product that is dispensed by prescription must be kept in a container that is supplied by the pharmacy and must be labeled in a manner consistent with any other prescription.

Oklahoma Administrative Code

Title 475. Oklahoma Bureau of Narcotics and Dangerous Drugs Control

Chapter 55. Pseudoephedrine Control

475:55-1-12. Criteria for exemption

(a) Any person may request an exemption or conditional exemption of Schedule V classification for a specific product. The decision of whether to grant an exemption shall be made by the Director of the Oklahoma Bureau of Narcotics and Dangerous Drugs Control, who will take the following into consideration:

- (1) Ease with which the product can be converted to methamphetamine;
- (2) Ease with which pseudoephedrine is extracted from the substance and whether it forms an emulsion, salt, or other form;
- (3) Whether the product contains a “molecular lock” that renders it incapable of being converted into methamphetamine;
- (4) Presence of other ingredients that render the product less likely to be used in the manufacture of methamphetamine; and,
- (5) Any pertinent data that can be used to determine the risks of the substance being used in the illegal manufacture of methamphetamine or any other controlled substance.

(b) The burden of proof for exemption shall be upon the person requesting the exemption. The petitioner shall provide the Oklahoma Bureau of Narcotics and Dangerous Drugs Control with evidence that the product has been formulated in such a way as to serve as an effective general deterrent to the conversion of pseudoephedrine into methamphetamine. Such evidence shall include the furnishing of a valid scientific study, conducted by a professional laboratory and evincing professional quality chemical analysis, which is in accordance with uniform parameters set forth in writing by the Oklahoma State Bureau of Narcotics and Dangerous Drugs Control. This report shall include documentable and reviewable data and a clear delineation of methodology.

Oregon

Oregon Revised Statutes Annotated

Title 37. Alcoholic Liquors; Controlled Substances; Drugs

Chapter 475. Controlled Substances; Illegal Drug Cleanup; Paraphernalia; Precursors

Precursor Substances

475.973. Unlawful possession of ephedrine, pseudoephedrine or phenylpropanolamine; unlawful distribution of ephedrine, pseudoephedrine or phenylpropanolamine

<Text subject to final change by the Oregon Office of the Legislative Counsel.>

(1)(a) The State Board of Pharmacy may not adopt rules that exempt a product containing ephedrine or pseudoephedrine from classification as a controlled substance. Except as otherwise provided in this paragraph, the State Board of Pharmacy shall adopt rules to classify ephedrine, pseudoephedrine and phenylpropanolamine as Schedule III controlled substances. The Schedule III classification may be modified by the State Board of Pharmacy if the State Board of Pharmacy finds that restrictions on products containing ephedrine, pseudoephedrine or phenylpropanolamine under a Schedule III designation do not significantly reduce the number of methamphetamine laboratories within the state.

(b) Records of transactions involving products containing ephedrine, pseudoephedrine or phenylpropanolamine

are subject to inspection by the State Board of Pharmacy and law enforcement agencies. A person required to make or maintain records of transactions involving products containing ephedrine, pseudoephedrine or phenylpropanolamine shall forward the records to the Department of State Police if directed to do so by the department. Failure to forward records as required by this paragraph is a Class A misdemeanor.

(2) This section does not apply to products that the State Board of Pharmacy, upon application of a manufacturer, exempts by rule because the product is formulated to effectively prevent conversion of the active ingredient into methamphetamine or its salts or precursors. Upon notification from the Department of State Police that the department has probable cause to believe that a product exempted under this subsection does not effectively prevent conversion of the active ingredient into methamphetamine or its salts or precursors, the State Board of Pharmacy may issue an emergency rule revoking the exemption for the product pending a full hearing.
