West's Revised Statutes of Nebraska Annotated (2014)
Chapter 71. Public Health and Welfare
Article 24. Drugs
(1) Prescription Drug Monitoring Program

§ 71-2454. Prescription drug monitoring; legislative intent

It is the intent of the Legislature that an entity described in section 71-2455 establish a system of prescription drug monitoring for the purposes of (1) preventing the misuse of controlled substances that are prescribed in an efficient and cost-effective manner and (2) allowing doctors and pharmacists to monitor the care and treatment of patients for whom such a prescription drug is prescribed to ensure that prescription drugs are used for medically appropriate purposes and that the State of Nebraska remains on the cutting edge of medical information technology.

Article 24. Drugs
(l) Prescription Drug Monitoring Program

§ 71-2455. Prescription drug monitoring; Department of Health and Human Services; duties; powers

The Department of Health and Human Services, in collaboration with the Nebraska Health Information Initiative or any successor public-private statewide health information exchange, shall enhance or establish technology for prescription drug monitoring to carry out the purposes of section 71-2454. The department may use state funds and accept grants, gifts, or other funds in order to implement and operate the technology. The department may adopt and promulgate rules and regulations to authorize use of electronic health information, if necessary to carry out the purposes of this act.
