## States that Require All Licensed Prescribers and/or Dispensers to Register with PMP Database\*

\* Many states require that persons requesting access to the state PMP database first register as an authorized user. This map and the memorandum located on the NAMSDL website are concerned with only those states that require all practitioners licensed in the state to also register to use the PMP database.

<sup>1</sup> Alabama only requires physicians with or seeking a pain management registration to be registered with the PMP. <sup>2</sup> The Virginia provision goes into effect on July 1, 2015. <sup>3</sup> The Ohio provisions go into effect on January 1, 2015. <sup>4</sup> Practitioners in Maine will be automatically registered with the PMP upon obtaining or renewing their professional license.
