# Frequency of Data Reporting\*

\* Reporting frequency may not apply to veterinarians. Please check individual state statutes and rules for applicable reporting deadlines for veterinarians. ● Maryland has pending regulations requiring submission of data within 24 hours. ● Michigan requires daily reporting for online reporting of dispensing information and weekly for mail-in submission of data. ● Rhode Island's daily reporting requirement applies to dispensing of opioid prescriptions. Data for non-opioid prescriptions must be reported 3 business days/72 hours after dispensing. ● Wisconsin will begin requiring submission of data within one business day on April 1, 2017.
