CO HB 1366

Because the department of revenue (DOR) rules currently require all retail marijuana and retail marijuana products to be in packaging meeting requirements similar to the federal "Poison Prevention Packaging Act of 1970," this bill limits the provision to edible retail marijuana products.

Requires the DOR, on or before January 1, 2016, to adopt rules requiring edible retail marijuana products to be shaped, stamped, colored, or otherwise marked with a standard symbol indicating that it contains marijuana and is not for consumption by children. (Current law prohibits a retail marijuana products licensee (manufacturer) from adding marijuana to a trademarked food product unless the trademarked food product is part of a recipe and the manufacturer does not represent that the final product contains a trademarked food product. The bill expands this prohibition to knowingly adding marijuana to food products that a reasonable consumer would confuse with a trademarked food product and prohibits knowingly adding marijuana to a product that is primarily marketed to children.

4/21/14 – Introduced in Senate and assigned to the Senate Health & Human Services Committee

4/21/14 – Passed House on Third Reading

4/17/14 – Amended by the House Committee on Health, Insurance, & Environment and referred to the House Committee of the Whole; House Second Reading Special Order; Passed with Amendments
